

Anyone want to buy a '95 Taurus?

Yeah, I'm selling my car. I could only find one photo of it and it's of the rear. I'll try and take a few more. Anyway, it's a '95 Taurus, blue in colour. It's got power everything; seats, mirrors, brakes, steering, & door locks. Air conditioning for those hot summer days too. And low mileage, don't forget that.

"My god," you're probably thinking, "I'd mortgage my home for the chance to own a fine machine such as that. Why, the ladies would flock to me if I cruised the strip in such a magnificent automobile." And you wouldn't be all wrong. I am only asking for the paltry sum of \$3900. Then all this (and more) can be yours.

Email me if you're interested. **Update!** If any one of you refers to me the person who eventually buys my car, you shall receive not only my gratitude, but also (drum roll) a set of computer speakers!

Now you too can help Steve sell his car! Download this Word document or this PDF and post it on your office bulletin board!
