CBC offers way more podcasts

CBC is now offering podcast versions of what I'm willing to bet are your favourite shows. Have you ever wanted to listen to Definately not the Opera, but haven't been able to, because it's on right in the middle of Saturday afternoon? Now you can download the show and listen to it whenever you want. Never miss it again!

If this doesn't get you interested in podcasting, and actually subscribing to a show, I don't know what will.
