

Mozilla 1.0.0 release party!

I think everyone can tell by now that I don't need much of an excuse to go out and have a good time. Let's all go out and celebrate the release of Internet Explorer's biggest competition, the open source browser that's like, a zillion times better than Netscape: [Mozilla](#).

Information about the release parties in general can be found on [the Mozilla 1.0.0 party locator page](#).

Sign up for the Halifax party (Mozillapalooza) [here](#). Information will be posted here when it becomes available.

Tentative date is Friday, 14 June 2002. Bars/Locations are up for discussion.
