

My Television is Calibrated

I finally managed to get my television calibrated by a professional. His name is Gregg Loewen, and he was nice enough to post on the forums a description of what he did.

Click below for a graph of pre-calibration vs. post-calibration values for color temperature.

Toshiba TW40X81 (Steve Dinn)

Video Calibration Report - Performed by Gregg Loewen

IRE	6500	Pre	Post
100	6500	13600	6550
95	6500	13600	6650
90	6500	13400	6650
85	6500	13400	6750
80	6500	13100	6750
75	6500	12600	
70	6500	12000	6700
65	6500	11000	6600
60	6500	10100	6500
55	6500	9300	6500
50	6500	8900	6300
45	6500	8700	6200
40	6500	8500	6200
35	6500	8100	6400
30	6500	7600	6450

Lens Striping

	Left	Center	Right
Pre	6900	6600	5900

Post	6200	6400	6300
------	------	------	------

Note how close the post-calibration numbers (yellow) are to total perfection, at a color temperature of 6500k (blue).
