Nemesis

I'm probably more psyched to see Star Trek: Nemesis than the average person, or even the average geek. Now, I'm not going to be dressing up like a Klingon or anything, but I can probably answer most trivia questions without breaking a sweat. Insurrection was a little disappointing, but that was really to be expected from an even-numbered film.

Deanna is way hotter in the latest movies than she ever was in the show. In fact, First Contact was the first time I can remember that she ever looked hotter than Beverly. I don't know why she had to wear those retarded jump suits instead of a proper uniform. It'll be nice to see the familiar faces of the Enterprise E crew again.
