Prequel to "Silence of the Lambs" being remade

I read over at SandyWalsh.com that they're redoing the movie known as Manhunter, only this time it's going to be called "*Red Dragon*" and Edward Norton gets to be the star.

For those of you have never seen Manhunter, it's a prequel to Silence of the Lambs and (in my opinion) can't hold a candle to its successor(s). It's quite weird seeing somebody play Hannibal Lecter who's not Sir Anthony Hopkins.

Here's a link to the original story.
