

Smoking in the HRM

As many people know (and relish!) a new bill concerning smoking in public places has come into effect as of 01 Jan 2003. [This website](#), has all the information you should need about these new regulations, including [the bill itself](#).

The thing I find the most interesting are the fines (\$200 for an individual or \$500 for a corporation), and the fact that "[any member of the public can report their concerns to the HRM By-law enforcement office at 490-4000](#)".
