Songs for short attention spans

Find modern songs too long to listen to? Can't wait to hear the closing chords and get on to something new? This album may be just the thing for you. It's 100, yes, *one hundred* songs squeezed onto one 80 minute CD.

By forcing himself to find really, really short songs, the compiler has created an eclectic mix that's not at all unpleasant to listen to. If you have the means, I highly recommend giving it a listen. Even if you don't like a song, it's usually over in less than a minute.
