Spine.cx is two!

Today is the second anniversary of when I installed PHPNuke on spine.cx and made it the site it is today. Since then, there have been just over 730,000 page views, 3000 comments, and 6300 forum posts. Thanks for putting up with the ads and all that garbage. The site has grown a hell of a lot in the last year, and hopefully, it'll grow even more in the next.

Shout outs to all you playas with the low user IDs and the high post counts ;)
