

The Village

I saw The Village last week. Didn't really have time to write about it though. This is M. Night Shyamalan's latest effort (and fourth that he's both written and directed). For those of you who haven't seen The Sixth Sense, Unbreakable, or Signs, this one has the same sort of twistiness to it, but I won't spoil it for you. Anyway, I recommend it. It gets my seal of approval.

I thought the main chick in the movie was pretty hot, so naturally, I looked her up on IMDB. Turns out she's only hot with no makeup on like she was in the movie:
