

# Tidbits from Slashdot

There a couple of links from [Slashdot](#) that I found very poignant to whom I think my readers are ;) It's not plagiarism if you cite your sources, right?

[Building a home theatre PC](#). Something I am currently thinking about; yeah, I have a computer that's hooked up to my television, but I want one that can output in HD and Dolby Digital.

The [specs for Xbox 2](#). 64 bit microprocessors, PowerPC chips, NO internal hard drive, and NO backwards compatibility top the list of interesting bits.
